November 12-13, '05	Artistry in Wood
December 14, '05	Lunch at Dominic's
December 17, '05	Meeting @ MVCTC

### **PRESIDENT'S NOTES BOB HUTTER**

This past year was another good year for our club. Special thanks go out to our outgoing president, Harris Bartine, who did an excellent job as president. One of his accomplishments that will be especially remembered was the new laser engraved wood plaques. We've received several compliments already.

The contributors to our successful programs for each of last year's meetings were: Del Bower, who planned the October meeting, Paul Raisch planned our December meeting, Walt Dukek was in charge of February, and Dave Moser planned our April meeting. It is worth remembering that our meetings don't just happen. Someone must come forward and volunteer to do the work. Please come forward and volunteer when asked.

Our April meeting had variety of interesting presenters. It started off with Dwight Hunter from Fisch Precision Tools, Inc. who demonstrated some of the products he provides. His presentation was obviously successful with our members since he sold quite a bit. Bill Burge followed with a talk of some of the projects he made with a basic shop. Larry Bilderback led off the afternoon as he showed us his technique for building his award winning piecrust table.

The meeting ended with John Alvarez from Batteries Plus explaining the different types of batteries, especially those used in cordless tools.

There are a few changes to our Steering Committee. Del Bower will now be in charge of Special Projects. He will be in charge of our picnic. He will also take care of sending flowers whenever one of our members is in the hospital or passes away. Please call Del at (937) 434-0742 if you know of anyone who should receive flowers. Harris Bartine will now be in charge of Shop Tours and Field Trips. Tom Lensch will succeed Chuck Hoefle to be our liaison to Artistry in Wood due to Chuck's recent illness. Our thanks go out to Chuck for his service to our club over several years. When you see Chuck please thank him yourself.

**Artistry in Wood** will be November 12th & 13th this year. It will always be two weekends before Thanksgiving weekend. Since the date of Artistry in Wood keys off of Thanksgiving weekend Artistry in Wood could be either the 2nd or 3rd weekend of November depending on whether Thanksgiving weekend is the fourth or fifth weekend of November

## **JOINT PURCHASES**

### **JIM BARNARD – MAX MARSHALL**

We still have some tools ordered during the year that need to be picked up. Please contact Jim at 937-434-5800 to make pickup arrangements.

The Hide Glue ordered at the April meeting is also available to be picked up.

The National Hardware Show has moved from Chicago to Las Vegas starting this year. We will no longer attend the show because of the travel distance to Las Vegas. We have no plans to attend any other shows this year. The next International Woodworking Fair will be in Atlanta, Georgia in 2006.

SPECIAL THANKS! To Ray Miller and Charlie Hirsch for always having the salesroom set up for club meetings. Also to Glenn Wilson, George Hemker and Jack Kunz for their help keeping the order forms and money organized. And to the other the members who helped out at meetings passing out tools and handling other tasks as requested to help the sales function operate smoothly. The teamwork is truly appreciated.

Have a safe fun summer!

## **JEFF JEWETT SEMINAR**

### **JOHN KNIGHT – BUD KNOWLES**

This seminar will be the same weekend as Artistry in Wood. It is the only weekend in November we could book Mr. Jewett. For that reason we will change the seminar hours to be finished by noon on Sunday. More information in the August and October Newsletters.

## **WOW LOANER EQUIPMENT**

WOW also owns some items that are available to borrow. Lloyd Bowser has a steam box that can be used for bending wood projects. It is eight feet long and about fifteen inches square. Dick Kammerer and Bob Hall are keepers of the club moisture meters. Charlie Hirsch has a Magna Jig for setting jointer knives. Their phone numbers are in the

Steering Committee list found below in your

## **PROJECT CORNER**

### **LLOYD BOWSER**

Once again we had a very nice display at our April meeting.

I want to thank everyone who shared your projects with us during this last season.

Here are some of the projects shown at the April meeting.

Table saw tenoning jig – view 1

Tenon jig – view 2

Hope to see you in October.

## **SPECIAL PROJECT**

### **BOB HUTTER**

We Care Arts is a nonprofit program that helps people with disabilities through art. The program caters to people with emotional, mental, and physical disabilities and allows them create artistic items for sale in the We Care Arts store located at 3035 Wilmington Pike in Kettering. The program needs wood and we are asking for donations of small pieces of wood that we refer to as cutoffs. The wood that is needed are any pieces of wood (except pine) such as poplar, any other hard woods or plywood such as oak or birch veneer. The wood should be at least 12 " long and any width. Please bring your wood to the April meeting where we will have trucks to pick up the wood. If anyone is interested in volunteering at the center on Wilmington Pike, there is also a need for people to help in cutting the wood for the projects that are made by the clients served by the center. Any questions can be answered by Bob Hutter, phone (937) 428-0516 or email [bob.hutter@gmail.com](mailto:bob.hutter@gmail.com)

## **EDITOR'S NOTE**

### **JACK KUNZ**

We would like to add a few more features to your newsletter. If anyone has any ideas for things to publish in the remaining

space available here, please submit them to me for future newsletters. Some suggestions are, tips or techniques, favorite web sites, anecdotes about good experiences you have had with various merchants or any other topic you think would be of interest to the membership. Contact me and I'll help you with format and proofreading. Email is the best way, but be patient with my aggressive spam blocker. I can be reached at N8MCA@ARRL.NET. Like any email address, it can all be typed in lowercase.

**OPEN SHOP – FIELD TRIPS**  
HARRIS BARTINE

Those who missed Charlie Avery's open shop made a major mistake. He literally carved the area for his shop out of the crawl space under his house. He can be very proud of what he has built. His wife, Priscilla, had a lunch that could not be believed. Don't let this high standard of hosting stop you from having an open shop as this is one of the best ways to learn from each other.

**FOR SALE**

Powermatic wood lathe, 36 inches between centers, 12-inch swing – 18 inches over the gap. Face plates of 3 and 6 inches, dead and live centers, variable speed 500 to 4000 rpm, 1 hp motor, 220 v motor, weight 550 lbs, 3 chucks 3 drill chucks, bowl rest and 52 turning tools. All to be sold together. Excellent condition. Phone (937) 968-7663  
Forest Glidewell, Greenville, OH

**WOW LIBRARY**

Please review your video files and if you find any of the WOW tapes or DVDs please return them at the October meeting.

**WOOD FOR SALE**

I have approximately 1800 BF of 4/4 rough sawn (1" actual thickness) red oak lumber I would like to sell. A majority is rift sawn with some quarter sawn and plain sawn as well. I took this lumber out of the kiln last weekend. Most of the wood is 8-9" widths and 10' lengths. About 600 BF is good quarter/rift sawn with the remainder being #1 and #2 grades.

I'm asking \$3.00 per board foot for clear quarter/rift sawn and \$2.00 per board foot for the clear plain sawn. I also have some #1 common quarter sawn for \$2.00 per board foot and #1 common plain sawn and shorts (quarter, rift, and plain sawn) and that I will sell for \$1.00 to \$1.50 per board foot.

I'll sell all or part of this wood. The price for everything is \$4000.

E-mail me with any questions. I can send pictures of the wood if you would like.

Thanks,

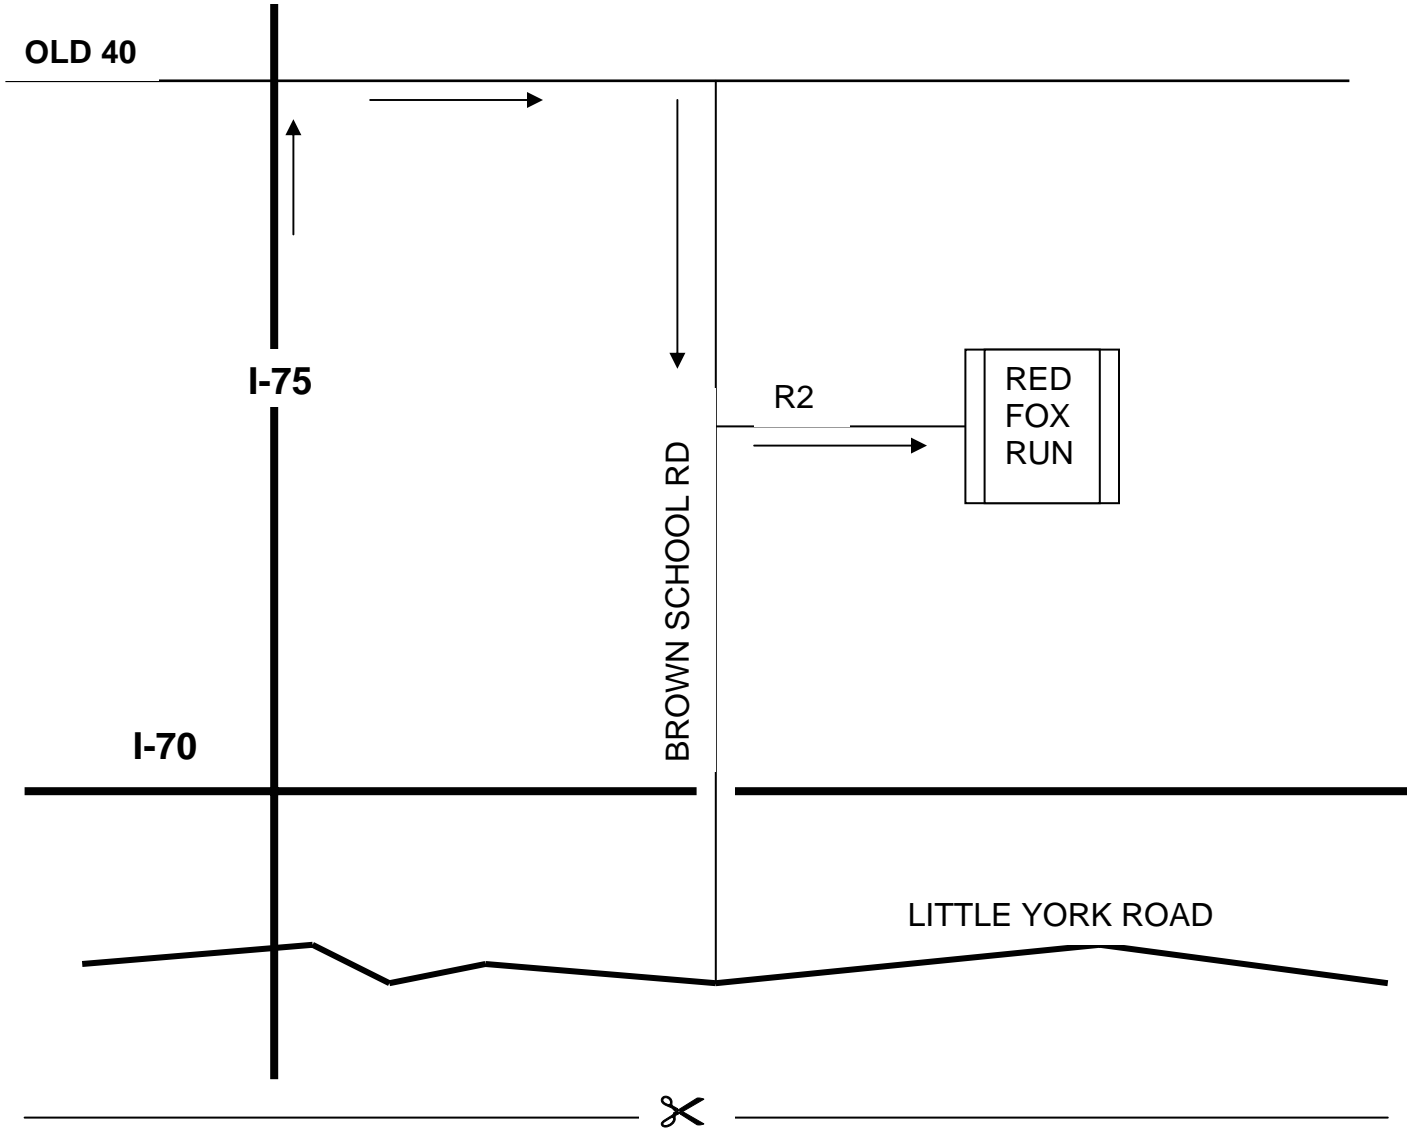

Dave Moser [dave.moser@goodrich.com](mailto:dave.moser@goodrich.com)

#### What's the difference between quartered and rift lumber?

A quartered board features medullary ray or "fleck" perpendicular to a grain which typically forms angles from 60 degrees to 90 degrees with the board's surface. A rift board exhibits a clean, straight, vertical grain pattern which typically forms angles from 30 to 60 degrees with the board's surface.

# WOW PICNIC

Our annual picnic will be held again at Taylorsville Reserve's Red Fox Shelter. We hope more members and their families will attend. Mark your calendar for July 17, 2005. You will be glad you did! It will start at Noon and we'll eat at 1:00.

Please complete form if you plan to attend the WOW picnic on July 17, 2005 at Taylorsville Reserve's Red Fox Run Shelter.

Name.....Number of people attending.....

The club will furnish the following drinks. Please mark your choice and number.

7UP\_\_\_ Coke\_\_\_ Diet Coke\_\_\_ Beer\_\_\_

BRING A COVERED DISH

Bring your own table service. We will start at noon and eat at 1:00

RETURN THIS FORM TO DEL BOWER AT 6725 INNSBRUCK DRIVE, DAYTON Ohio 453045459 OR CALL (937) 434-0742 BY JULY 10<sup>TH</sup>.
